

"FOR EVEN THE
SON OF MAN
CAME NOT TO BE SERVED
BUT TO SERVE OTHERS."
MARK 10:45

EDGE CHURCH

TEAM IGNITE

CLASS OF 2020

Ignite is an 11-month full-time programme for school leavers and students. Their key serving area is Next Gen; kids and teens who attend our Friday evening programmes and our local schools.

A typical week includes staff connection time, check ins, service meetings, school break time connections and school assemblies, prayer meetings and focused development times.

Ignite team members serve at our Sunday services and church events such as Next Gen conferences, camps, holiday club etc.

They get a day off during the week and get 3 weeks leave during the year, typically during school holidays.

What is Ignite?

A team of leaders will invest in the Ignite team, focusing on their leadership development, spiritual growth, personal development and practical skills. Someone joining the Ignite team can expect to grow in their love for God and others.

They will receive personal coaching with regards to choosing a career, presentation and facilitation skills. Other forums for growth include attendance at leadership conferences. These could include Assembly of God National Conference, Ministers' Meetings and The Global Leadership Summit.

They will spend time connecting with those doing similar programmes at other churches and skills around team work, responsibility and communication will also be learned. They will gain a better understanding of who they are, through exploring their particular personality profile and gifting.

They will benefit through giving of themselves - having a lasting impact on others through serving. In a busy school week the team could connect with over 8000 kids and teens.

What is the value of being on the Ignite Team?

Ignite is aimed at those who have finished Matric, are between the ages of 18 and 25 years and who are intentional about investing a year of their lives to equip themselves for their future. They may or may not yet know what they plan to do in terms of their future careers and would like to take a year to discover what that could look like.

They should be committed to growing in their relationship with Jesus and with others through regular serving opportunities in various areas of ministry and be willing to learn from their leaders and keen participants in their self-development.

They need to recognise that the year's success is largely dependent on themselves and their willingness to be guided and stretched in many areas of their lives.

You may have questions for example: Is this programme for me? What does it cost? What does the fee cover? We would encourage you to please ask these or any other questions you may have before making a decision.

So please feel free to drop us an email to karen.josias@edgechurch.co.za or contact the church office on **021 559 0325** to set up a time to meet.

What are the requirements?
